419-473-8383 ext. 7817
Room S131

Course Overview: The Biology II course is intended as a survey of living organisms with a focus on classification, structure, and function. Study will be based on the seven-kingdom classification system. Specific topics covered in this course include classification, bacteria, protozoa, chromists, fungi, plants, invertebrate animals, and vertebrate animals. Dissection labs are a part of this course and all students are expected to participate in these learning experiences. Biology II meets the graduation requirement for an elective science course.

Course Objectives:

By the end of this class, you will be able to:

- Classify living organisms by their characteristics and evolutionary relationships into the seven-kingdom model of biological classification.
- Distinguish between the two groups of prokaryotes and how they differ from eukaryotic cells.
- Describe the structures and relate them to their functions in living organisms from each kingdom.
- Use a microscope to observe various microorganisms.
- Explain the roles bacteria, protozoa, chromists, and fungi play in the environment.
- Identify and describe the external and internal structures of representative vertebrate and invertebrate animals.
- Describe how living organisms are adapted to their environment.
- Summarize the characteristics and diversity of animals to the class level.

Prerequisites: passing grade in Biology **Credits:** ½ credit per semester **Lab Fee:** $15

Teacher Bio

This is my 28th year of teaching science. All of them have been here at Whitmer High School. I earned my Bachelor's Degree in Comprehensive Secondary Science from Bowling Green State University. I also have a Master's Degree in Science Education from BGSU. I have completed 36 credit hours of post-graduate coursework and hold a permanent teaching certificate in the state of Ohio. I am the Science Department Chair in addition to my teaching duties.

Personally, I have one child, my son Andrew, who is a 2012 Whitmer Alumni and a 2016 graduate of BGSU with a computer science degree. He was also a Shoreland Firebird! He currently lives and works in Maumee. I have a tabby cat named Honey. I live in Point Place, but grew up in Sandusky. I worked at Cedar Point for seven summers. Fun fact about Miss Johnson, I was born in Africa in the country of Ethiopia.

Course Communication

Class Announcements	Google Classroom - Stream tab
Email/Personal Messages	ljohnson@wls4kids.org 419-473-8383 ext. 7817 Remind text messaging is available for both students and parents Note: It may take up to 24 hours to receive a reply during the week and 48 hours on the weekend, so do not wait until the last minute to send a message if you need help.
Online	If we should ever need to hold class online, here is the Zoom meeting link. You will enter a waiting room. Please be sure to use your first and last name so that I can identify who is in the waiting room. Access will only be granted to students at their designated times for class. Have your video camera on or your profile picture visible. In most cases we would initially want students to be muted once class gets underway.

Required Texts, Materials, and Online Accounts

- Google Classroom link
- A link to the textbook(s) used in Biology will be provided in Google Classroom.
- **Materials for the Year:** Syllabus (signed), Lab Safety Agreement (signed), Goggles
- **Materials for Everyday:** binder (½ or 1 inch), paper (loose leaf or spiral), pen or pencil, Chromebook, ear buds
- **Optional Materials:** computer mouse, cell phone camera, Chromebook charger
- Resources for class will be available on the class website - more information to follow!

Grading Policy

Grading: Each semester grade will consist of class work (85%) and the semester exam (15%). The class work grade will be made up of tests (55%) and labs, class work, and homework (45%).

Grade Scale:					
	93 – 100	A	80 – 82	B-	67 – 69	D+
	90 – 92	A-	77 – 79	C+	63 – 66	D
	87 – 89	B+	73 – 76	C	60 – 62	D-
	83 – 86	B	70 – 72	C-	0 – 59	F

Late Work: No late work. All assignments are to be turned in on time. This includes make-up work, so be mindful of due dates! Please contact me directly via email, text, or phone if there are extenuating circumstances I need to be aware of.

Student Code of Conduct

All students are expected to adhere to the Whitmer Code of Conduct.

Classroom Rules and Procedures:

1. *Food and Drink*: There is to be no food or drink consumed in class at any time. This includes candy. Do not bring bottles with beverages into class or they will be confiscated.
2. *Restroom breaks*: Use the facilities before you get to class. You will have 3 EMERGENCY passes to the restroom each quarter. These emergency passes may be issued at the teacher's discretion. (If a medical problem requires you to use the restroom more frequently, please provide a doctor's note to the school nurse.)
3. *Be prepared*: Everyday you should bring to class a chromebook, earbuds, charger, a pencil or pen, paper, and binder.
4. *Late work*: No late work. All assignments are to be turned in on time. This includes make-up work, so be mindful of due dates!
5. *Electronics*: All electronic devices, cell phones, earbuds, etc. should be used for educational purposes only.

Lab Safety: Students are expected to conduct themselves in a responsible manner in the science lab. A signed Lab Safety Agreement must be on file with the teacher in order to conduct any lab experiments. All lab safety rules will be followed. Failure to do so will result in serious consequences including, but not limited to removal from the classroom or suspension.

Attendance Policy

Attendance rules and procedures will be followed according to the Whitmer Student Handbook. If you have questions or concerns regarding attendance issues, please contact the Attendance Office at 419-473-8492.

- **YOU** are responsible for your work when you are absent!
- Assignments for each day should be accessed through Google Classroom.
- In the event of an extended absence, make arrangements by contacting your teachers via e-mail or the attendance office. Communication is key!
- You have as many days to make-up missed assignments as you were absent.
- Make-up work typically cannot be done during regular class time.
- Students are allowed up to five excused absences per semester and still have the opportunity to earn full credit for the work missed on these days. Any additional absences after the fifth excused absence will be considered unexcused regardless of the reason for the absence (other than doctor, funeral, and court). Field trips and late to school are counted towards your five excused days.
- Credit for assignments missed during an unexcused absence will be reduced by 50% of whatever you earn on that assignment.
- Assignments missed because of behavior issues resulting in your removal from class cannot be made-up.
- Skipping class will result in zero credit for all assignments completed that day.

Academic Honesty

Students are expected to do their own work. Copying from a classmate or allowing a classmate to copy from you is cheating and will result in a score of zero on the assignment in question. Plagiarism is NOT acceptable under any circumstances! All students have the responsibility to refrain from cheating, plagiarism, or any other form of academic dishonesty. Students that partake in actions that are considered academically dishonest are subject to disciplinary action.

Please refer to this document throughout the school year.

Please sign and submit the pdf of this syllabus

in Google Classroom no later than August 23, 2021.

I have read and understand the information above concerning this Biology class.
