

## Weekly COVID-19 Weekly Report December 14, 2020

Governor DeWine announced an Ohio Department of Health order that requires school districts to publicly share Covid-19 data. Each district is required to provide non-identifying information about positive COVID-19 cases publicly available. We will not share the names of students and/or staff within the COVID-19 report. Each Monday, Washington Local plans to share the data from the previous week on our website. Daily updates are shared with the Toledo-Lucas County Health Department.

December 14, 2020 (Previous Week's Data)	This Week's Numbers	Changes from Last Week	Total Population Size	Percentage of Population
Employees Quarantined	13	+8	825	1.6%
Students Quarantined	25	-35	6803	0.4%
COVID-Positive Staff Members	11	-9	825	1.3%
COVID-Positive Students	8	-11	6803	0.1%

### Definitions

- **Quarantined:** When someone comes into direct contact with a COVID-19 Positive person.
  - Must quarantine for 14 days (symptoms can start 2-14 days after exposure)
  - Quarantine begins on the last day the person had contact with the positive person
  - Ends only when the person is symptom-free for 14 days
- **Isolated/Positive:** Isolation is for a sick individual. Isolation includes
  - 10 days of self-isolation *and* AT LEAST
  - 1 day fever-free without use of fever reducing medications
  - Return to school/work if symptoms have significantly improved
  - Isolated individuals may be COVID+ or may just be demonstrating symptoms. Only confirmed Positive Cases are reported on this form.

\*Washington Local School district cannot disclose specific case information due to FERPA/HIPAA laws.

**\*\*Families and Staff are encouraged to continue to report positive cases and quarantines even during REMOTE instruction to [Covidteam@wls4kids.org](mailto:Covidteam@wls4kids.org). The Toledo-Lucas County Health Department uses Washington Local data to provide guidance for school re-opening.**
